# THE FUTURE OF THE BOX

---

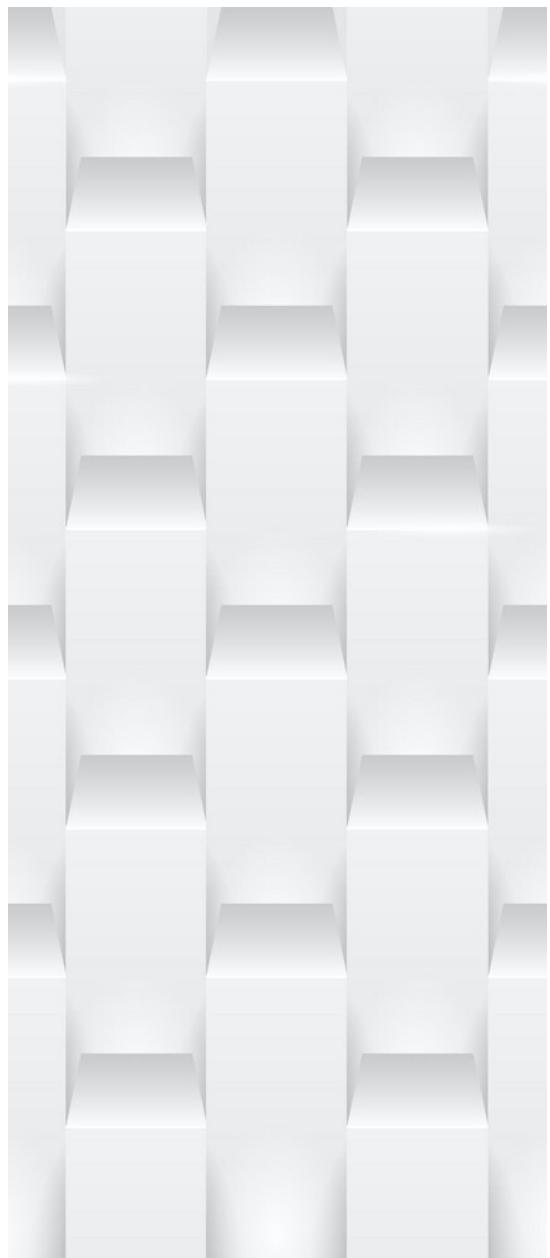

TECBox is the ultimate destination for all box-lovers out there to rejoice in the wonderful art of box shopping. With a plethora of unique features, combined with a beautiful neomorphic design, it offers an unparalleled experience that no other box shop can offer.

We developed TECBox for our customers, who fuel our ambitions and make us challenge ourselves to try out new, incredible projects that help millions of people around the world.

It is a great honor to be a part of a multidisciplinary team that works hard to create new and innovative products for everyone to enjoy.

<b>WELCOME TO YOUR BOX</b>	1-3
<b>BUYING STUFF</b>	3-6
<b>TEAM MEMBERS</b>	7-11

# WELCOME TO YOUR BOX

It all starts with the home screen. Throughout all of your TECBox experience, there's always a navigation bar at the top of the screen. This cool looking floating shape is the hub linking every part of the ride together.

Navigation bar

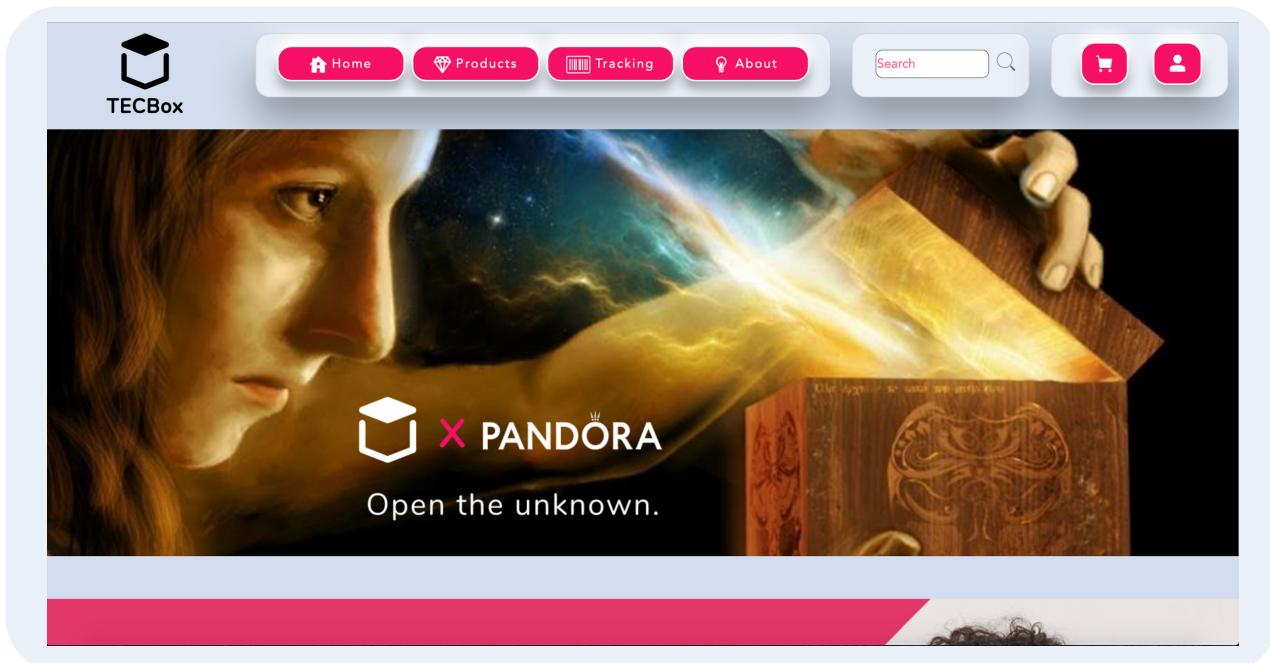

It's pretty self-explanatory, but let's take a quick tour. Every red rounded rectangle you see is a button that leads to another section of the webpage.

Our killer design team takes it very seriously to follow specific element guidelines, so a lot of the general aspects of the interface are common regardless of the section you're in.

**Home** - Goes home, duh... Basically a quick shortcut to some cool products, kind of like the "face" of the store.

Don't hesitate to scroll down to check out our latest additions. This page is constantly updated with lots of cool new things, so keep checking back. ;)

# WELCOME TO YOUR BOX

Home page

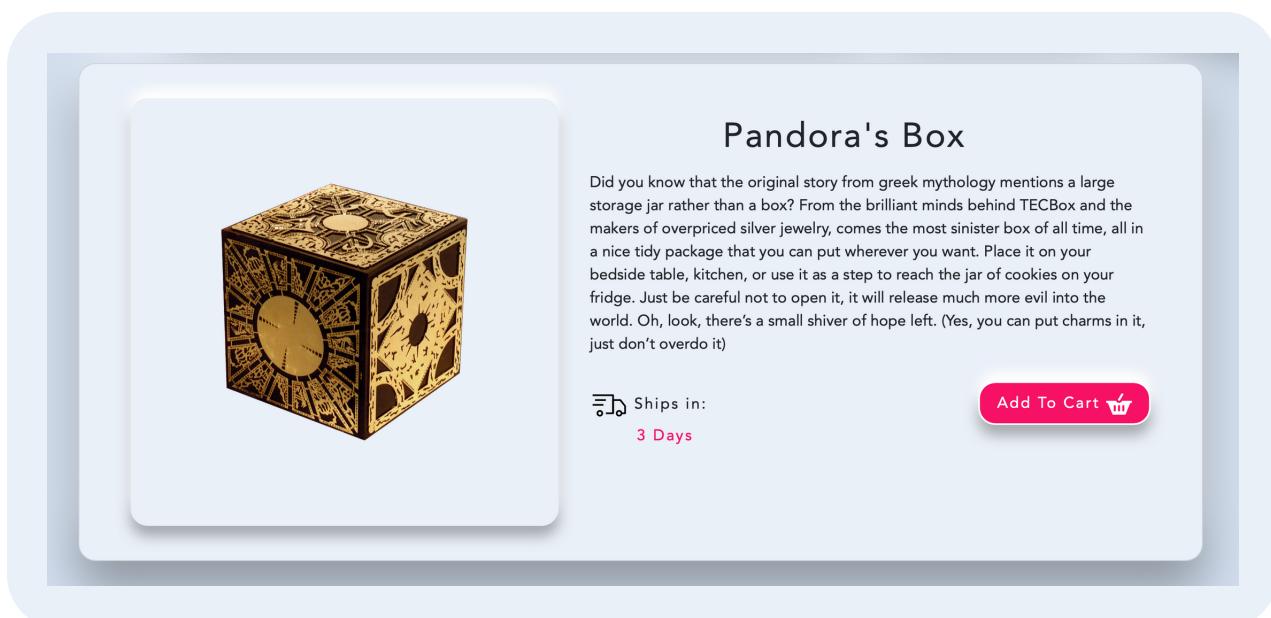

**Products** - This page shows all of the available products in our store. It's a very great way to quickly see everything we offer. They're organized in nice cards that group an image, name and price. If you're sure of your purchase, click the red button to automatically add the product to your cart. You can also search for specific products using the search bar at the top and clicking on the magnifying glass.

A screenshot of the TECBox website's products page, featuring a grid of eight product cards. Each card includes an image, the product name, and a price button.

Products page

# WELCOME TO YOUR BOX

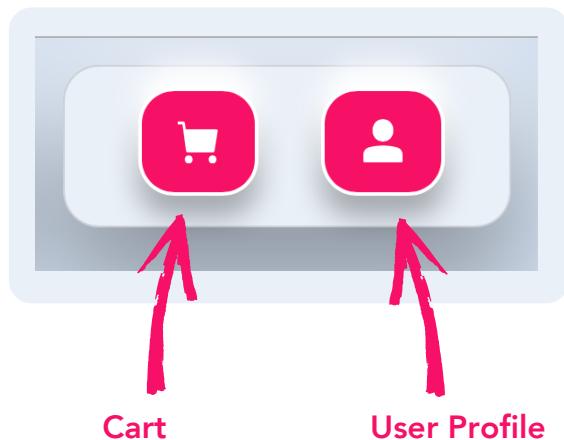

You can easily click a product's image to navigate to a more detailed view. Here, you'll find the item's description, a nice picture, and an estimated shipping/delivery date. When you're done reading the details of your new friend, click the **Add To Cart** button to continue your journey.

**Product detail page**

You'll be automatically redirected to the cart page. However, you won't be able to buy anything yet. You need to tell us who you are first! :)

Set your gaze upon the navigation bar once more. Very well, then, now look towards the rightmost card. There are two icons related to personal functions. The left one leads to your **Cart** and the right one to your very own, much unique **User Profile**!

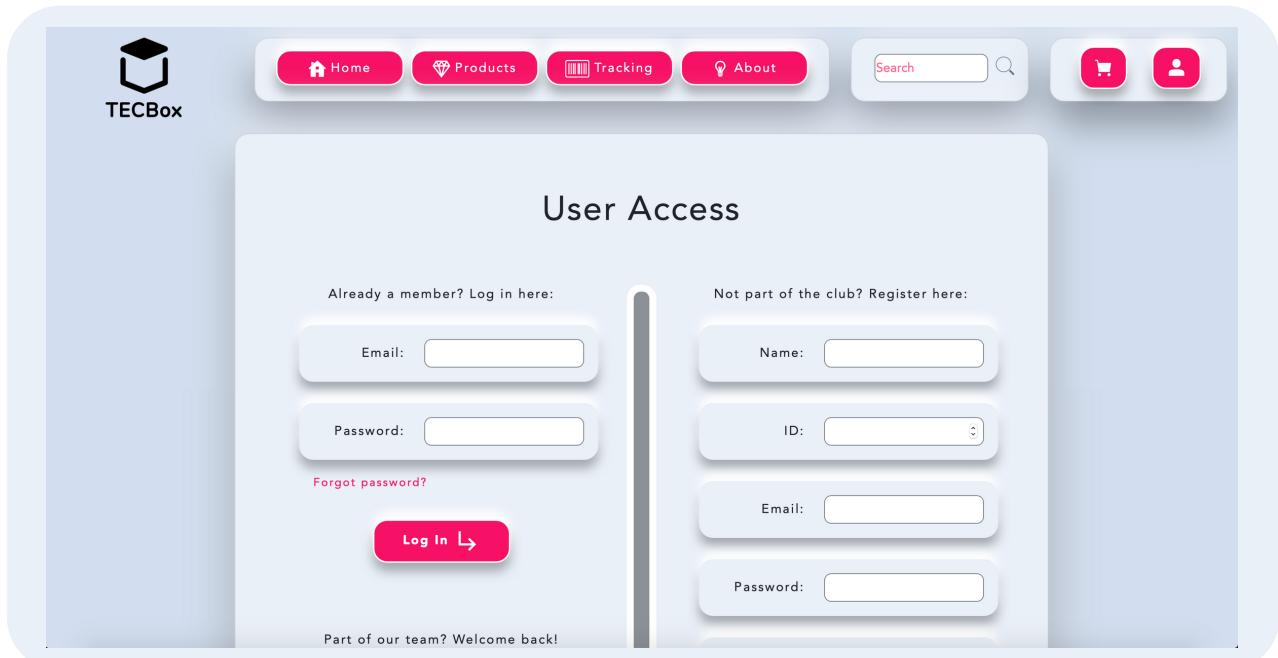

**#OneMoreThing**  
**TECBox fully supports dark mode in compatible browsers (basically all modern ones). Activate it now to embrace the dark side of the Force!**

# BUYING STUFF

---

To begin your odyssey into the wonderful art of box-shopping, you'll need to give us a few of your personal details. Don't worry, everything will be treated very responsibly. Then again, it's not like we learned how to make web pages, complex cross-platform servers and stunning user manuals a couple of weeks ago.

If you haven't signed up for our state-of-the-art user profile system, you can do so by clicking on the **User Profile** button, as we saw in the previous section.

User Access page

# BUYING STUFF

To the right, you'll find empty entries to fill with the most deeply buried parts about yourself, such as \*gasp\* your name. Please be honest, and this is not like when your mom says it. If you aren't, your packages might end up with a random kid who'll get to play with your toys and could potentially cause irreparable chaos and mayhem across multiple dimensions.

TL;DR: just be careful when filling out your user information, it could lead to a total collapse of space and time itself.

Once you've filled the gazillion entries and clicked the Register button, you'll be ready to rock and roll around the clock. Head over to the left column and fill out your email and password. Click the [Log In](#) button to enter the matrix. (and by matrix, we mean your profile, not a whole bunch of 1's and 0's falling in a black & green background)

The screenshot shows a user profile interface. At the top, it says "Welcome, Tim Cook" and has a "Log Out" button. On the left, there's a sidebar labeled "Your info:" containing fields for ID/Courier Number (911), Email (apple@apple.com), Phone (+1 (302) 2242-4930), Address (1 Apple Park Way), Province (California), and City (Cupertino). To the right, there's a table titled "Packages:" with columns: trackingID, client, description, deliveryDate, status, route, and deliveryMan. The table contains three rows:

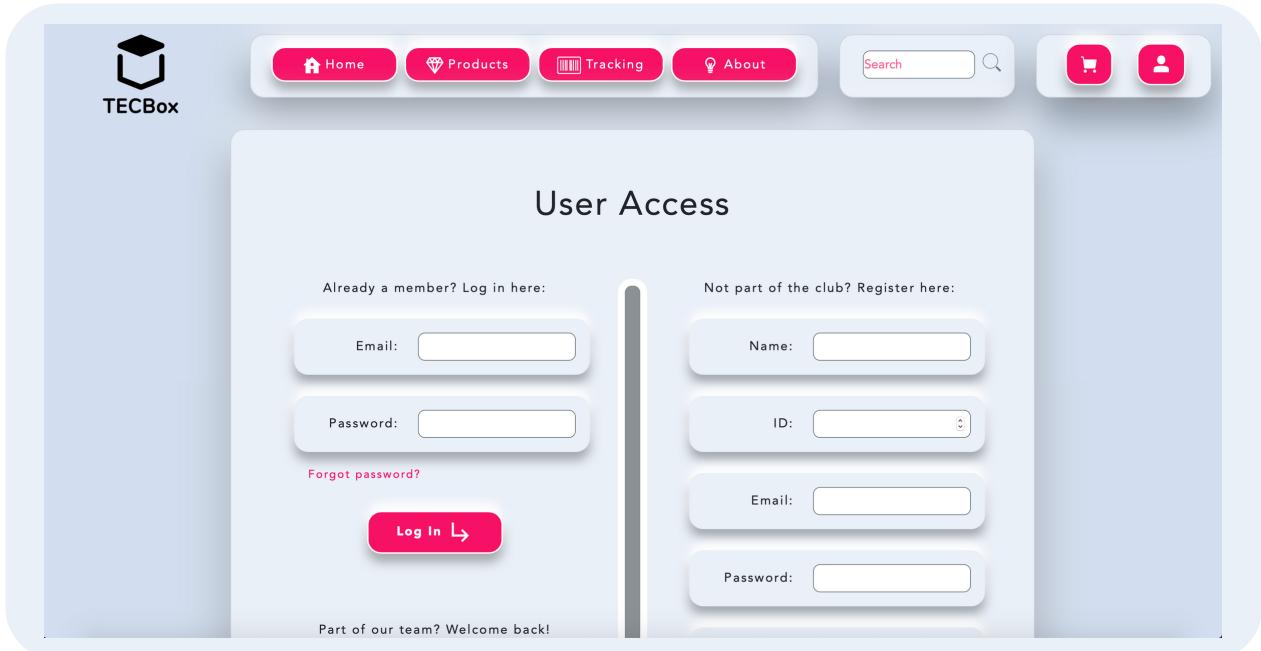

trackingID	client	description	deliveryDate	status	route	deliveryMan
123322	Tim Cook	Pandora's Box	2020-05-04	Delivered	1	Jesus
123323	Tim Cook	Chest	2020-05-04	Ready to deliver	1	Jose
123324	Tim Cook	Apple TV 4K	2020-05-04	Failed to Deliver	1	Jesus

User Profile page

Ta-dah! To the left, you'll see your information. I mean, it says "Your info" in wobbly letters... To the right, a nice table with the greatest investments in yourself, or as the people from Management like to call them: "Packages". Ugh, but you and I know the truth.

# BUYING STUFF

Now, try adding some products to your cart. You'll see on the right card, the delivery information associated with your account. Pretty neat, huh?

## Cart page

We at Schlafenphase believe that the customer should have only the best tools for every task, that's why we offer multiple forms of payment. You can invest in our beautifully crafted boxes with your credit card, as well as some of the most popular options out there.

Currently we support Apple Pay, PayPal and Google Pay (for all you shills out there). Click your preferred payment method and join the fun! ;)

### #OneMoreThing

You can see the current status of your packages if you only know the ID.

Click the **Tracking** button on the top navigation bar to get started

### Package Status:

# TEAM MEMBERS

---

Now, if you've come this far in this guide, it's either because you have a very specific reason to read so far down, or you're a team member. In the first case, well, what are you still doing here? Don't you want to go like to sleep or something?

But if you are a team member, then welcome! This is a truly magnificent comprehensive guide to using our user-friendly tools for managing our company. We need employees to make us money, or else how are we going to pay for a luxurious vacation at the Papagayo Gulf for the development team to relax after such a stressful year.

Part of our team? Welcome back!

 Delivery

**Team Log In** 

**Team access card in  
User Access page**

At the bottom of the left column on the User Access page, you'll find a very special form tailored just for all of you team members.

Enter your information as provided by our trustworthy recruitment robots and the department you've been assigned to. Then, click the **Team Log In** button. You'll be redirected to the corresponding console depending on your role.

# TEAM MEMBERS

**Modify employee data**

Please write the data you want to modify in the left form and the new data in the right form. Be sure to not leave blank entries

EMPLOYEE	NEW DATA
ID:	<input type="text"/>
	Name: <input type="text"/>
	Department: <input type="text"/>
	Email: <input type="text"/>
	Password: <input type="text"/>

**Submit**

## Edit Element for Admin page

## WAREHOUSE

It follows the same rules as the administrator console for adding, deleting and editing elements. In this console, you'll be able to see the current orders and their corresponding information.

**Warehouse Console**

**Log Out** 

Tracking ID	<input type="text" value="Tracking ID"/>
Client	<input type="text" value="Client"/>
Description	<input type="text" value="Description"/>
DeliveryDate	<input type="text" value="DeliveryDate"/>
Status	<input type="text" value="Status"/>
Route	<input type="text" value="Route"/>
DeliveryMan	<input type="text" value="DeliveryMan"/>

**Add**    **Delete**    **Edit** 

trackingID	client	description	deliveryDate	status	route	deliveryMan
456654	Test	Chest	2020-12-12	Ready for Delivery	1	Jesus
963366	Kevin	Chest	2020-12-12	Ready for Delivery	1	Jose

## Warehouse Console page

# TEAM MEMBERS

## DELIVERY CONSOLE

In this page, you can generate reports filtered by specific criteria. Currently we support three types, which are pretty self-explanatory.

**Best sellers by date** shows TECBox's best selling products in a delimited time

**Delivery list by route** shows packages assigned to each route.

**Delivered packages by date** shows all packages marked as "Delivered" in a delimited time.

Click the **Generate** button to show the selected report.

The screenshot shows a rounded rectangular interface titled "Delivery Console". In the top right corner is a "Log Out" button with a close icon. Below the title, the text "Report generation:" is displayed. There are three main sections, each with a title and two input fields for dates or route numbers, followed by a "Generate" button with a gear icon:

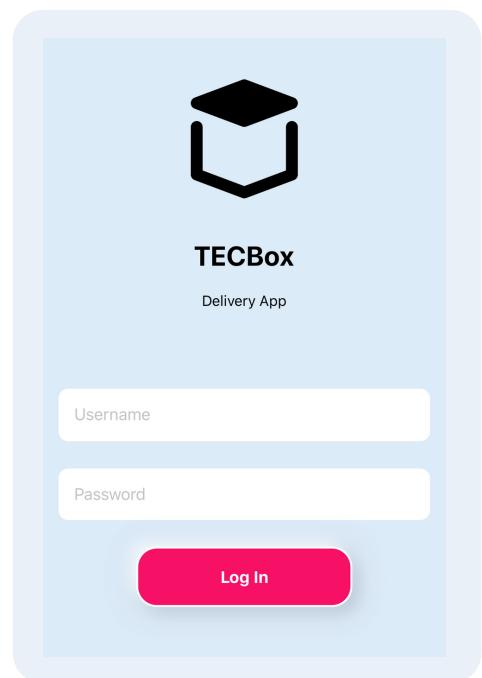

- Best sellers by date:** From:  To:  **Generate**
- Delivery list by route:** Route number:  **Generate**
- Delivered packages by date:** From:  To:  **Generate**

Delivery Console page

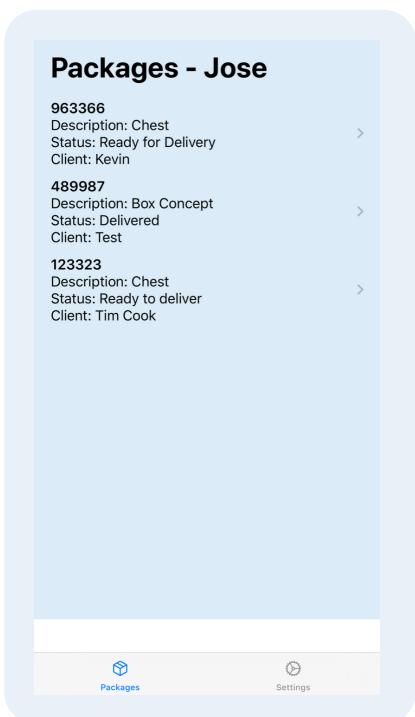

# TEAM MEMBERS

## DELIVERY APP

The other companion in your package-delivering journey is the TECBox mobile Delivery App. If you are part of our delivery team, you can download it right now on the App Store for free, just search for "TECBox" and it should show up.

You'll be greeted by a log-in form, similar to the one on the web page. Just enter your credentials to authenticate.

Package List

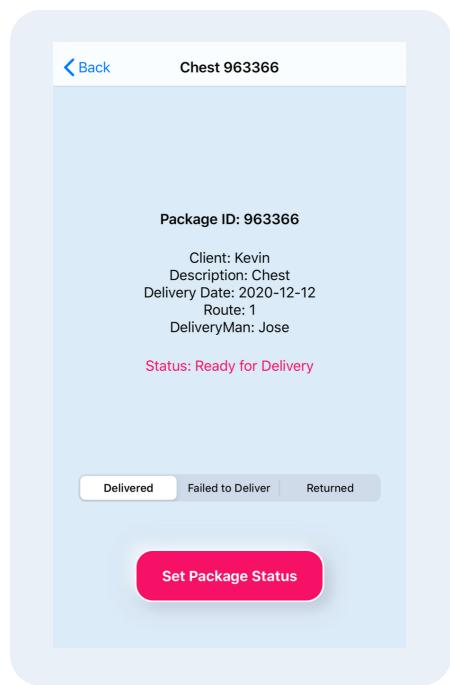

Once logged in, there'll be two tabs at the bottom of the screen.

- The left one shows a package list of all of your assigned packages. Tap on a row to expand its details.
- The right one shows your employee information and allows you to log out of the app.

# TEAM MEMBERS

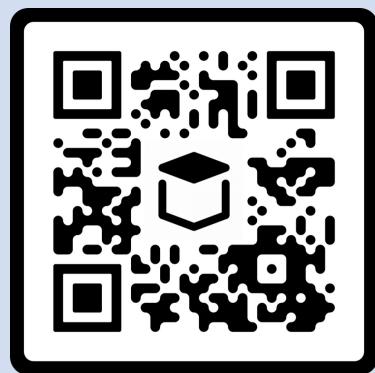

If you tap a package row, you'll see its information.

- Tap a selection between "Delivered", "Failed to Deliver" and "Returned". Tap **Set Package Status** to update the package's information for the customer to see on his/her profile.
- Tap the **Back** button on the upper left side to go back to the list.
